

**Bastyr University**  
**Dietetic Intern Participation Evaluation for ND and Nutrition Shifts at BCNH**

Intern Name: Joanna Wirkus

Shift Supervisor,

Thank you for allowing a Bastyr Dietetic Intern to participate on your shift today.

The major objective of the BCNH Dietetic Internship rotation is to allow each dietetic intern to actively participate as a member of a natural medicine team, providing nutrition care for patients seeking health care from naturopathic physicians and traditional world medicine providers, while honoring the medicine being practiced.

Please rate each of the evaluation measures for the intern who participated on your shift using the following scale:

5 = consistently exhibited a significant level of excellence throughout this shift

4 = occasionally exceeded participation expectations on this shift

3 = met expectations for participation on this shift

2 = did not consistently meet expectations

1 = consistently performed well below expectations and did not actively participate to support this shift

NA = did not observe or not applicable

- 5 Offered accurate food and nutrition information in an integrative manner (C1)
- 5 Actively participated in the development of health and wellness goals for patients (C1a)
- 5 Demonstrated professionalism in patient, student and supervisor interaction (CRD2.11)
- 5 Developed collaborative relationships with all stakeholders, including health care providers, students, patients, patient families and support and administrative staff (CRD2.10)
- N/A Demonstrated the ability to integrate both natural health/whole foods and allopathic treatment perspectives to provide wholistic patient care. (C3)
- 4 Exhibited flexibility and an ability to think critically in a fast-paced setting (CRD2.11)

Comments: *Today we only had one patient. Joanna was engaged & interactive. She was respectful of students & asked questions & offered suggestions in a collegial manner.*

Supervisor's Signature:  Date: 1/8/15
